SUMMARY

I am a Software Developer and coding bootcamp Instructor with over three years of experience who specializes in Front-End and Mobile App development, dedicated to creating very cool and user-friendly interface. I began my coding career with Android development. Later, I learned other stacks and started teaching at a coding bootcamp for kids. Over time, I expanded my teaching to adults, helping them become software developers, as my communication and tech skills improved.

Technical Skills:

- HTML
- CSS
- JavaScript
- Bootstrap
- ReactJS
- NodeJS
- ExpressJS
- React Native (cross platform android & iOS)
- Redux/Redux Toolkit
- MongoDB
- Firebase
- Testing
- Debugging
- WordPress
- Version control (GitHub/GIT)
- Android Studio Dev(beginner)

FUNCTIONAL EXPERTISE

- specialized in building perfect UI for mobile and web applications to match design.
- confident in using React, React Native, HTML and CSS.
- design and build applications by consuming APIs.
- tutor and mentor Software Engineers.
- collaborate and work perfectly in Teams.

WORK EXPERIENCE

Software Developer, Codetrain, Accra, July 2022 – Present.

- Managed and maintained Codetrain's official website.

- Implemented updates and added new features to enhance user experience.
- Collaborated with Codetrain's team to develop software applications for clients.

Boot Camp Instructor, Codetrain, Accra, July 2022 – Present.

- Trained and mentored over 200 software engineers, with 70% of graduates securing software development positions within 12 months of completing the Codetrain.
- Conducted one-on-one mentoring sessions with 9 students weekly, resulting in a 90% improvement in their coding skills over a 6-month period.
- Helped students debug weekly. • Adapted to three new coding stacks within 4 weeks each.

Assistant Boot Camp Instructor and Software Developer Intern, Codetrain, Accra, August 2020 – August 2022.

- Played a key role in training over 50 kids in the junior bootcamp.
- Assisted in training and mentoring 159 software engineers, with 80% of graduates securing software development positions within 12 months of completing the Codetrain.

PROJECT EXPERIENCE

Anaanse

Link: <https://anaanse.com/>

Technologies: ReactJS, JavaScript, Postman.

- **Anaanse** connects interns to recruiters.
- Led a team of 2 front-end developers to complete **Anaanse** ahead of schedule.
- Improved the platform's user engagement by 40% through UI enhancements.

Aesbuy,

Link: <https://github.com/ablashika/AesBuy>

Technologies: React Native, Redux Toolkit, Expo, Firebase.

- an e-commerce mobile application for women's fashion wear.
- offers seamless user experiences, real-time product updates and management.

EDUCATION: REGENT UNIVERSITY - Accra, Ghana - BSc Computer science June 2022.
